INSTITUTIONAL PLAN FOR INTERNATIONALIZATION

“The Institutional Plan for Internationalization aims to, in the next five years, develop internationalization strategies that guarantee the equity, diversity and inclusion of different cultures at the University campus, targeting human, administrative, pedagogical and scientific development, aspects considered essential to the quality of higher education. Going beyond the frontiers of education and as it is a Higher Education Institution focused on Health Sciences, the internationalization of UFCSPA will catalyze the appropriation of concepts, such as global health, by its academic community.”

INSTITUTIONAL PLAN FOR INTERNATIONALIZATION

- 1) Foster internationalization in the various sectors of the institution.
- 2) Promote the internationalization of the curriculum.
- 3) Make UFCSPA an institution of international reference in teaching, research, extension and innovation in health.
- 4) Increase the visibility of UFCSPA at international level.
- 5) Keep institutional strategies and policies related to internationalization updated.
